

Partnering with  
**Specialty Retailers**  
to Build a **Culture of Health**  
for 40 Years

## SUN FOOD ENERGY™

You can feel the difference of Nature's Life® products because we search the globe for the very best natural raw ingredients with minimal processing. From our first product created 40 years ago to over 400 products today, Nature's Life delivers natural supplements that work.

The organic wheat grass we use in our Super Green™ products is grown in the unique climate of an alpine desert meadow. The rapid temperature changes here stimulate the plant to develop deep roots that draw more minerals and trace elements from the soil. The result is one of the most nutrient dense wheat grasses available.

Carefully selected natural ingredients make all the difference:

**PRENATAL MULTI**  
Red Raspberry leaf used in our Prenatal Multi Vitamin contains fragrine, an alkaloid that is intended to provide nutritive support for muscles used during labor.

**MEGA PAK™**  
We use a carrot base in our Mega Pak's™ Vitamin A, which is rich in beta carotene, and is more easily absorbed than synthetic alternatives.

**LUTEIN I CARE™**  
The Lutein in our Lutein I Care™ is naturally extracted from marigold petals. We add citric acid to protect carotenoids and ensure maximum potency.

**PROSTATE MAINTAIN 600™**  
Berries from the Saw Palmetto plant, which contain lipophilic sterols and EFAs, provide nutritive support for healthy prostate function.

**SOY PROTEIN**  
We choose US grown non-GMO soy to use in our soy proteins for its superior taste, texture and mixability.

**GOLDEN FLAX SEED™ OIL**  
Golden Flax Seeds, high in Omega 3s, are cold pressed in a special process designed to protect the delicate nutrients in the oils.

**Women's Health** **Acidophilus**  
*Minerals* **Antioxidants**  
**Men's Health** *Nature's Life* **Tablets**  
Softgels *Sun Food Energy* **Herbs**  
**Probiotics** **Capsules** **Powders**  
**Green Foods** **Liquids** **Vitamins** *EFA's*  
*Thoughtful Innovation* **Proteins**

**F**or over 40 years the Nature's Life® brand has partnered with the finest suppliers and retailers to build a culture of health. We are committed to supporting natural, proactive health and are attuned to the latest breakthroughs in science. Nature's Life thanks our trusted partners and invites anyone with a desire to be part of the solution to join our culture of health!

**Best Regards, Nature's Life.**
